

## Online Parliament January 10th 2022

**Attendees: Sofie (Speed), Shada (CSR), Signe (Turneringsudvalg + Exiles), Winnie (Hundested), Pernille + 2 players (FRK), Nadine (Odder), Rikke (Odense), Jesper (DRU Board), Mikael (DRU), Rie (DRU).**

### **Evaluating 2021: 5 Sevens Serie Tournaments + 2 Development Days**

#### Tournaments

Speed: Not enough with only 5. Train to play tournaments. 8 would be nice.

FRK: Not enough tournaments. Tournaments motivate players. 8 would work very well.

Aarhus: Not enough tournaments. Tournaments motivate players. Did not achieve higher attendance at tournaments even though there were less transportation. Don't care about transportation just want to play more.

#### Development Days (Frederiksberg + Odder)

General positive feedback from players who attended the development days. Clubs do not want development days instead of tournaments. They want both!

Speed: Did not support the idea of replacing tournaments with development days. Some players showed that by not joining development day as a protest. There should be both during a season. When it only is training it can be hard to find motivation to travel far.

Odense: New players really liked the Development Days. It increased motivation. Liked the togetherness and training. Nice to meet players from other teams. Distance wasn't a problem, players wanted to join.

CSR: Didn't attend. Would expect that young players from juniors will be recommend to join next season. For experienced players they do not see any value, it is just another training. There must be something special to attract experienced players.

FRK: In general, is the Development days are goods. Feedback from player who liked the development days. Pernille suggest if the training be divided in new and experienced groups, according to different levels. Get coaches from abroad. What is the goal with development days? Is it only for new players to learn or is also to try something new/different?

### **Tournaments 2022**

#### Spring

Suggestion to move round 2 to April 23<sup>rd</sup> otherwise national team have 4 weeks in a row with tournaments.

FRK+Speed: We must have focus on player welfare, so round 2 should definitely be moved to April 23<sup>rd</sup> such that national team players have a free weekend.

Mikael Lai introduced the setup for the DM Seven Tournament in Aalborg.

CSR+ARK+Speed+Exiles: The DM sevens tournament should not count in the overall seven series result. FRK wouldn't mind that it did count.

Pernille- A medal from DIF means a lot. Remember to evaluate if we should change the season such that we end with the DIF medal.

Mikael – This would require swapping the season, such that season start is in August/September. This gives some other issues. But let's evaluate after we have had the first DM Sevens in Aalborg.

Ludvig suggest (and volunteers to host) the Development day in spring and that it should be the same weekend as EM Sevens M/K June 5<sup>th</sup>. The players combine training and watching the national team play so there both is a social event and skill training as the feedback showed was important to the teams.

Due to many activities for the national team we do not expect national team players to attend the development day in spring.

## Fall

Exiles: University teams (Exiles, CSR, ARK) always have issues with starting the season too early as players are not back from vacation yet. Would like to keep September 3<sup>rd</sup> as first fall tournament.

FRK: Same for them.

Keep 4 tournaments in the fall. Add additional development day.

Pernille (FRK) suggest that the Development Day can be at the same time as a national team training. It will enable to divide training in new and experienced players. Also enables a "mini" try-out for players who might be interested in joining the national team. Create awareness of the national team, also for new players.

Odense – Have some players who would be very interested in a combined training with the national team.

Mikael will reach out to the National Team manager and discuss options.

The development day as early as possible. Suggested 24/9 or 1/10.

Speed(Sofie)+Exiles the earlier the better, prefers 24/9.

Signe asked if anybody has complaints or concerns about the updated Activity Calendar. No complaints.

Following dates are suggested (also shown in "2022 Aktivitetskalender\_RETTELSER KVINDER")  
7 Tournaments in the Seven Serie + 2 Development Days + DM Sevens in Aalborg

9. April: 1. Sevens Serie

23. April: 2. Sevens Serie

21. Maj: 3. Sevens Serie

5. Juni: Development Day 1 (training + watch EM Sevens)

25. Juni: DM Sevens Aalborg (not a part of the Sevens Serie)

3. September: 4. Sevens Serie

17. September: 5. Sevens Serie

24. September: Development Day 2 (combined with national team)

8. October: 6. Sevens Serie

22. October: 7. Sevens Serie

## **Other**

### Use of video

A general note from Signe regarding video documentation. Several clubs record their games. Clubs have this season been using video material as evidence in complaint cases sent to the Turneringsudvalg. This is excepted as evidence and can be used by clubs.

Mikael – Clubs have asked DRU to record games. Is it necessary? How many clubs already have videos available?

Clubs with Veo camera: FRK, Speed, ARK, CSR. All shared between men and women.

Clubs are willing to share on tournament days, just come and ask. Email the clubs afterwards to get access to the recordings.

It can be coordinated in the coach/manager meetings on the day of tournament, what teams have a Veo available on the day.
